

# KSTRONG EDGE TROLLEY BEAM ANCHOR 80MM -250MM

**AFA930412**

Trolley Beam anchors attach to structural steel beams to create a movable rolling anchor point for a fall arrest device. The Rolling Beam anchor adjusts to fit a range of beam widths.

## Features

- Provides a movable Anchorage Point using the length of the beam to which it is mounted, to move along with the user.
- Highly corrosion resistant and easy to install.
- Comes with adjustable flanges for use on different beam sizes.
- The trolley allows continuous safe Anchorage by allowing the Anchor Point to travel across the length of the beam, along with the user.
- The wheels of the trolley provide extremely smooth movement over the beam, over which it is mounted.
- Suitable for Flanges widths of 80mm -250mm

## How To Use

Refer to User Instruction Manual 

## Metal Components

Material : Aluminum Alloy & Stainless Steel  
 Finish : Anodized  
 Minimum Breaking Strength : 23kN

## Weight

3.90 kg ± 0.01 kg

## System Strength

23kN

## Relevant Standards

Tested as per EN 795:2012 Type B & ANSI Z 359.18.2017 TYPE A

Direction of Load Application  
 Maximum Angle is 30° from vertical
